ABOUT US

Company Overview

MONDAN LIMITED, is an Environmental Services, Research and Construction (ESRC) consulting firm in Ghana under the Companies code, 1963 (Act 179) with its main office located at Awukugwa Akuapem, close to SDA school. We offer holistic environmental solutions that meets the needs of our clients (private businesses and governmental organizations) both locally and internationally.

Our services include: solid waste management, sanitation, environmental policy and research, environmental impact assessment, environmental permitting, environmental sustainability, circular economy for business consultancies, environmental management systems, occupational health and safety, and environmental audit.

The firm also provides services from, natural resources management, feasibility studies, land and water contamination assessments and reclamation, training and capacity building, project supervision and management, water resource development and management, and environmental laboratory analysis services. Moreover, we provide construction services such as design and construction of roads, residential and commercial buildings, water supply systems, and drainage and sanitation systems, among others.

Vision

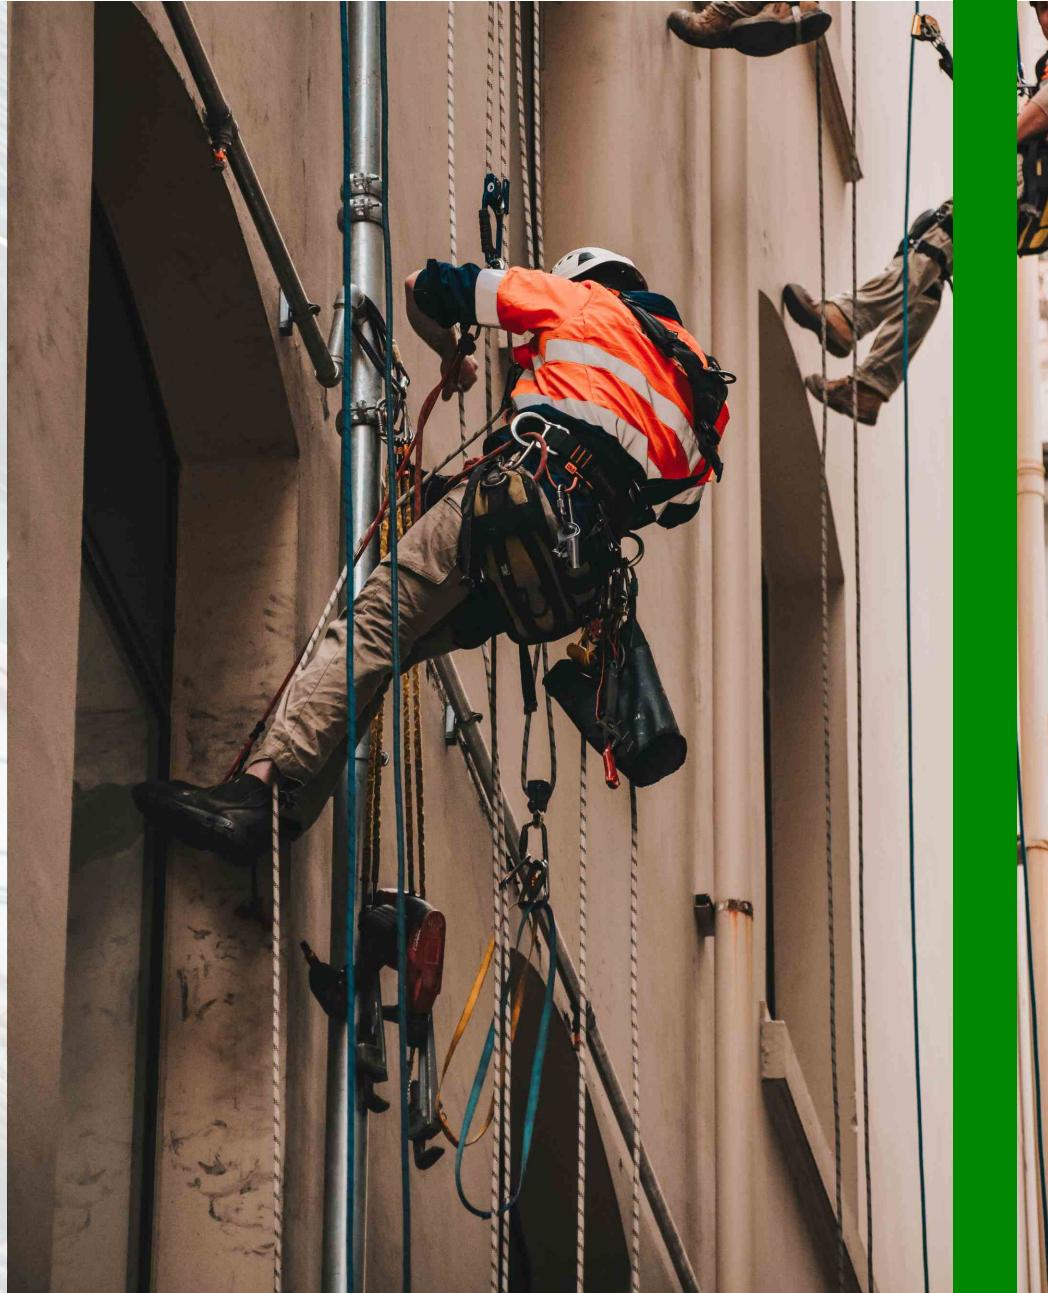

The vision of the company is to be the model firm for environmental services, research and construction (ESRC) industry through the provision of high-quality excellent services to clients locally and internationally.

Mission

The mission of the company is to proffer innovative solutions and strategies to global environmental services, research and construction challenges faced by governments, businesses, and international organisations at a satisfactory and cost-effective manner.

Offices

MONDAN Ltd has its main office at Awukugwa-Akuapem near SDA School, in the Eastern region of Ghana, Sub-office at Pantang- in the Greater Accra and at Kyekyewere in Obuasi.

Bankers

United Bank For Africa (UBA)

Staff

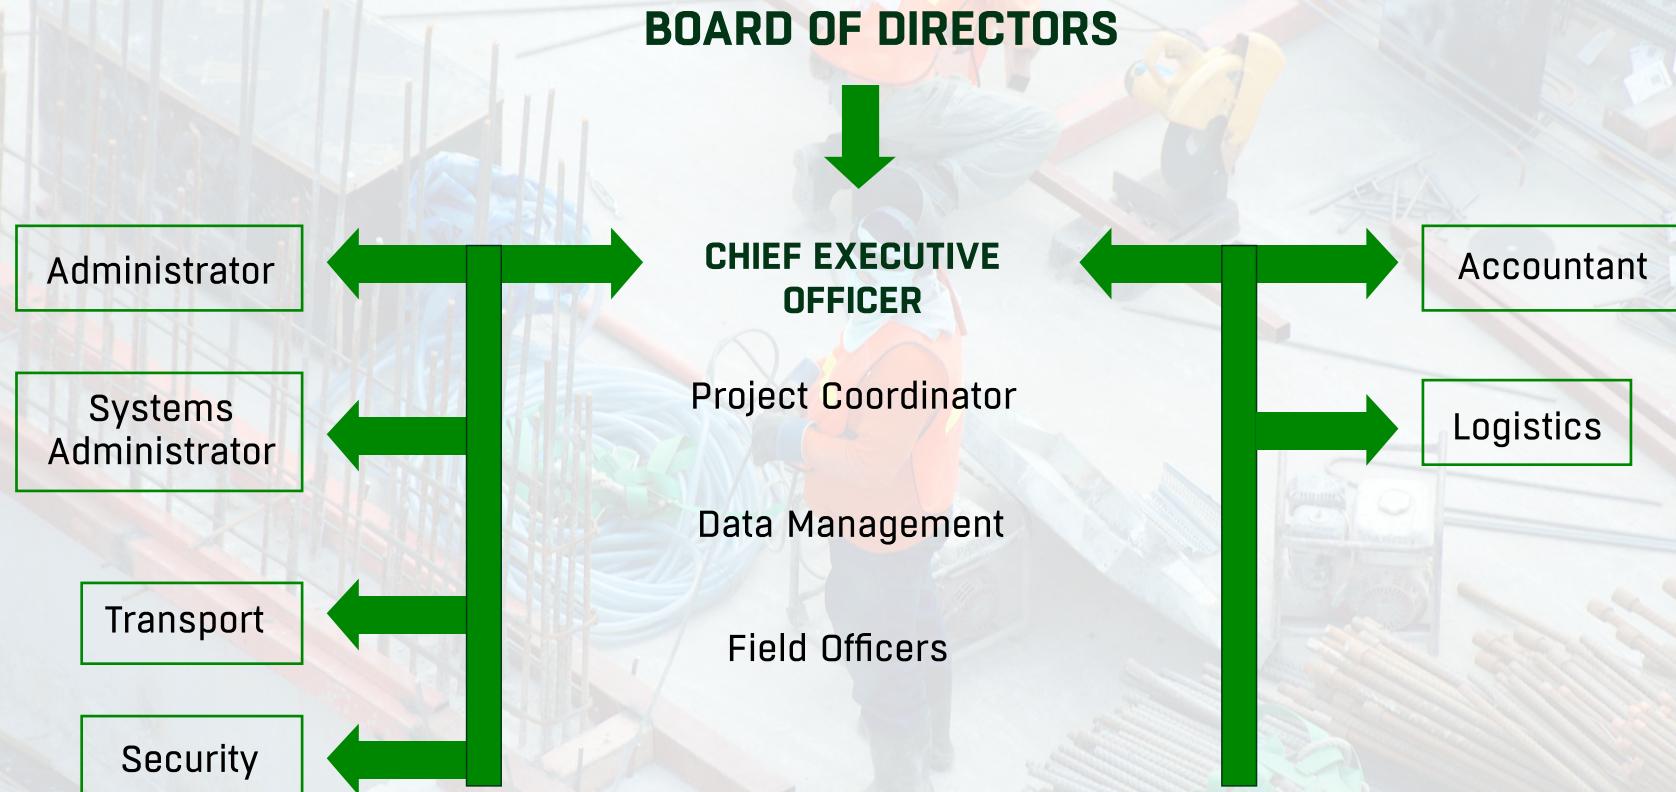

MONDAN Limited has well experienced staff, who are experts in their respective field. This gives our clients the assurance that highly qualified professionals with several years of experience acquired both at the local and international front will work around the clock to give solutions to their pressing problems.

The blend of young and old professionals keeps our firm vibrant, competitive and enriched as we render exceptional services to our clients.

However, other staff are hired based on the specific job requirements and need to beef-up the staff strength and capacity to deliver excellently to our clients. In some cases, joint ventures approach is adopted to bridge any capacity gaps.

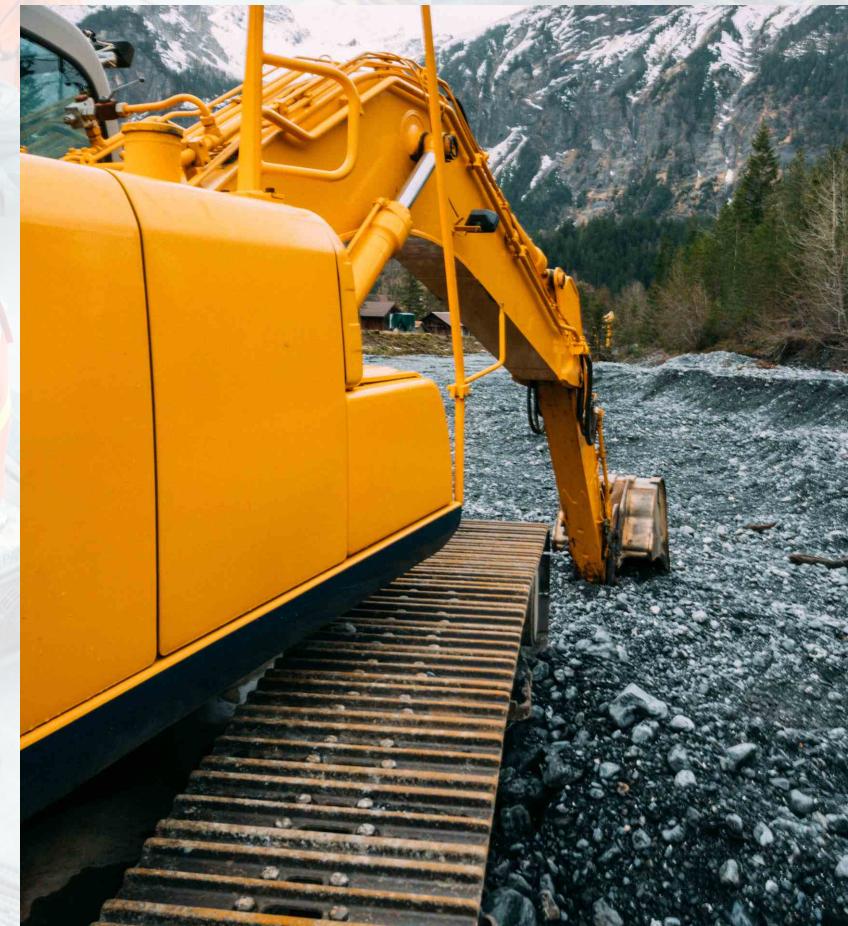

MONDAN ORGANISATIONAL CHART
